

ScoZinc Completes \$550,000 Non-Brokered Private Placement

COOKS BROOK, Nova Scotia, April 10, 2019 -- ScoZinc Mining Ltd. (TSX-V: **SZM**) ("**ScoZinc**" or the "**Company**") is pleased to announce that it has completed a non-brokered private placement financing for aggregate gross proceeds of C\$550,000 (the "**Offering**"). The Offering consisted of the sale of 1,100,000 Units at a price of C\$0.50 per Unit where a Unit consists of one common share ("**Common Share**") and one half of a Common Share purchase warrant, with each full warrant exercisable at a price of \$0.75 per Common Share for 24 months following the closing of the Offering ("**Warrants**").

The Offering is subject to the final approval of the TSXV. The securities issued pursuant to the Offering are subject to a four month and one-day statutory hold period.

ScoZinc intends to use the net proceeds from the Offering primarily to prepare for the restart of operations at its 100%-owned ScoZinc mine in Nova Scotia (the "**ScoZinc Mine**"), and for general working capital purposes.

In connection with the Offering the Company compensated eligible institutional finders for their assistance with the Offering by paying an aggregate cash fee of \$18,500 and issuing to the finders 37,000 compensation warrants in the aggregate, with each finders' compensation warrant exercisable into a Common Share at the price of \$0.75 per Common Share for 24 months following closing.

CAUTIONARY STATEMENTS

Neither the TSX-V nor its Regulation Services Provider (as that term is defined in the policies of the TSX-V) accepts responsibility for the adequacy or accuracy of this news release.

This News Release includes certain forward-looking statements which are not comprised of historical facts. Forward-looking statements include estimates and statements that describe the Company's future plans, objectives or goals, including words to the effect that the Company or management expects a stated condition or result to occur. Forward-looking statements may be identified by such terms as "believes", "anticipates", "expects", "estimates", "may", "could", "would", "will", or "plan". Since forward-looking statements are based on assumptions and address future events and conditions, by their very nature they involve inherent risks and uncertainties. Although these statements are based on information currently available to the Company, the Company provides no assurance that actual results will meet management's expectations. Risks, uncertainties and other factors involved with forward-looking information could cause actual events, results, performance, prospects and opportunities to differ materially from those expressed or implied by such forward-looking information. Forward looking information in this news release includes, but is not limited to, the Company's objectives, goals or future plans, statements, potential mineralization, exploration and development results, the estimation of mineral resources, exploration and mine development plans, timing of the commencement of operations and estimates of market conditions. In particular, the Company has not made a production decision with respect to the ScoZinc Mine. The Company has not completed a feasibility study or established the economic viability of the Project or proposed operations on the ScoZinc Mine, and no mineral reserves have been established for the ScoZinc Mine that would support a production decision. Mineral exploration projects which are put into production without first establishing mineral reserves and completing a feasibility study have historically had a higher risk of economic or technical failure. There can be no assurance that forward-looking statements will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from ScoZinc's expectations include, among others, the ability of ScoZinc to receive the necessary regulatory approvals to complete the Offering, availability and costs of financing needed in the future, changes in equity markets, risks related to international operations, the actual results of current exploration activities, delays in the development of projects, conclusions of economic evaluations and changes in project parameters as plans continue to be refined as well as future prices of metals, as well as those factors discussed in the section entitled "Risk Factors" in ScoZinc's Management's Discussion and Analysis. Although ScoZinc has attempted to identify important factors that could cause actual results to differ materially, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements.
